Art Unit: 1722

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

The declaration is unsigned.

It is noted that a transmittal of an executed declaration was filed on 19 April 2002; however, the electronic file of this application does not contain the executed declaration. It appears that a signed declaration was filed on 19 April 2002, but was inadvertently misplaced by the USPTO.

2. Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth above. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTO-85) and the application number in the upper right hand corner.

3. This application does not contain an abstract of the disclosure on a separate sheet as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.

It is noted that the cover of WIPO document WO97/12742 has been provided, and includes an Abstract in the English language; however, an Abstract on a separate sheet should be provided.
